Book a show or a workshop with us until January 2022. We will donate 5% of your activity fee to an organisation we are honored to support this year.

**KOMT HET
ZIEN!**

Komt het Zien! provides live audio descriptions as well as *meet & feel* introductions to shows, to benefit theatre-goers who are blind or have low vision. Through headphones or earbuds, persons with visual impairment are able to listen to an assistive audio describer, who tells them everything about the visual environment of the performance. Details such as decor, costume or body language are described.

Make theatre fun and accessible for all, in particular for those who don't have full vision.

Komt het Zien! (Come and See It!) introduced audio description to the Netherlands in 2014 and has continued to develop this activity. Thanks to the efforts of Komt het Zien! the number of accessible shows here have increased from 0 to 60 performances a year. This non-profit works with 4 audio describers (the only ones in the Netherlands).

How does my donation get there?

You don't have to do anything. You pay your regular invoice. We gather the funds and give this directly to Komt Het Zien! for them to use for their specialist services and skilled audio describers.
